

ATHENNAS

Where Trust Meets Partnership

FRESH FRUITS & VEGETABLES PORTFOLIO

More Than a Supplier, A Strategic Partner!

More than a traditional U.S.-based importer and distributor, ATHENNAS operates as an **Integrated Strategic Sourcing & Supply Chain Company**, focused on long-term creation.

- **Integrated** because we manage multiple interconnected stages of the value chain.
- **Strategic Sourcing** because our value goes far beyond procurement; we identify, qualify, develop, negotiate with, and manage suppliers.
- **Supply Chain Company** because we remain involved after the deal, coordinating logistics, compliance, quality, documentation, and execution.

Our diversified portfolio features **premium fresh and frozen produce, conventional and organic**, sourced from trusted growers in leading production regions across Mexico and Latin America.

We take pride in delivering top-quality products, from farm to doorstep, under our brand or through your **private-label** program.
